The *Faith in Action* Disc Golf Event helps to provide needed transportation and support to older adults and individuals with disabilities in Marshall, Ohio and Belmont Counties. The services provided by volunteer caregivers are often the simple tasks that make the difference in a person’s ability to remain independent. These tasks include escorted transportation to medical appointments, shopping, errands, respite for family caregivers, friendly visiting, telephone reassurance and a variety of other needs. All services remain available without charge to residents of our community regardless of income level. The kindness and generosity of the community and the willingness of individuals to help others have made *Faith in Action* what it is today.

Thank you for your support.
